

TAMER BADR

SUMMARY

I was an armed forces officer, and after my retirement, I took several courses that qualified me to work as a quality and safety consultant.

I am passionate about my work and have a great deal of experience in qualifying companies, factories and hospitals to obtain ISO 9001 (Quality), ISO 45001 (Safety), ISO 14001 (Environment) certification, I helped them establish quality, safety and environmental systems. After I gained great experience in the field of work as a good consultant, I worked as a lead auditor for several years, where I audited many companies and factories to obtain the ISO certificates in quality, safety and environment.
